LEAD REGISTRATION DISPUTE - COMPLETE DOCUMENTATION

EXECUTIVE SUMMARY

This document presents comprehensive evidence regarding a lead registration dispute where:

- **Lead registered on: 3rd January 2026**
- **Customer site visit confirmed: 3rd January 2026 (same day)**
- **"Existing lead" notification received: 4th January 2026 (next day)**
- **Final outcome: Customer successfully booked the flat**

Despite registering the lead first and receiving visit confirmation from the deligent team, we are now facing issue due to "existing lead"
.

CRITICAL FACTS

- ✅ Lead registered by us on **3rd January 2026**
- ✅ Customer visit **CONFIRMED by builder's team on 3rd January 2026**
- ❌ "Existing lead" message received on **4th January 2026 - AFTER our registration and confirmed visit**
- ✅ We immediately clarified that customer had already visited
- ✅ We continued follow-ups and successfully closed the deal
- ✅ Customer has **booked the flat as a result of our efforts**

OUR POSITION

The timeline and evidence clearly demonstrate:

- **Priority:** We registered the lead before any "existing" notification
- **Legitimacy:** Builder's own team confirmed the customer visit
- **Effort:** We invested significant time in calls and follow-ups
- **Result:** Customer booking is a direct outcome of our work

The "existing lead" notification came **AFTER** our registration and **AFTER** your team's visit confirmation. This cannot be grounds for commission denial.

REQUEST FOR ACTION

> We formally request:
>
> 1. **Immediate review** of this case based on provided evidence
> 2. **Commission credit** as per our channel partner agreement
> 3. **Written confirmation** of resolution
> 4. **Process clarification** to prevent such issues in future

---

CONCLUSION

This documentation establishes beyond doubt that:

- We acted in good faith
- We registered the lead first
- We received confirmation from your team
- We closed the deal successfully

We value our partnership with the builder and trust this matter will be resolved fairly based on facts and timeline evidence.
